Callie and Doug,

I just got this message from Ina Nez Perce with the Fort Belknap Tribes:

Diana,

Do you have a copy of the page entitled *Background Information on the Proposed Dewey-Burdock Uranium In-Situ Recovery Site*? This was referenced in the letter, but not attached to your email. I also could not find this Consultation document on EPA's website, possibly because they are working on the site.

I sent her the figures attached here but noticed that the letter to the Tribes references 6 attachments. Is there another attachment re: Background Information?

Thanks for your help!

Diana

Subject: FW: Additional Background Information on DB

All:

Here is the information on the Dewey Burdock project that should provide enough background and adequate talking points as you reach out as you deem appropriate to your tribes to see if we might be expecting them to seek consultation.

Please reach out late this week or early next week. Please send a quick note on what you find out to Valois. Also, please cc:

Douglas

Colleen
Darcy
Alfreda and me.

Thanks

Subject: Additional Background Information on DB

Callie: the attached Word document updates Valois' talking points by including additional background on the proposed Dewey Burdock ISR uranium project for the TPMs placing calls. For TAP's reference, I have also attached Figures 1 through 5 which were enclosed with the formal consultation letters to Region 8 tribes. Finally, based on Valois' recent tribal communications, she took the liberty of annotating some of the information in the attached R8 Tribal Contact List.

Thanks very much for the assistance of your staff,

Douglas K. Minter
